A new disaster has struck the Kingdom of Eryndel once again! This time, the situation is even worse!

The dark sorcerer Zharaboss has plunged the kingdom into eternal heat — so intense that rivers have dried up and the king's fields have stopped yielding crops!

Even Queen Elsa's powers are not strong enough to summon a snowstorm against this scorching heat, and poor Olaf is melting a little more with each passing day...

The only hope lies in journeying to the Spirits of the Enchanted Forest — and asking for their help!
